EDUCATION

Rutgers University – New Brunswick

May 2019

B.S. in Computer Science

GPA: 3.4

Udacity: Developing Android Apps

June - August 2017

- By the end of the course I had built a simple weather app for Android
- Topics included:
  - o RecyclerView, Intents, The Application Lifecycle, Preferences, Data Persistence, Creating SQLite Databases, Content Providers, Background Tasks, and UI

PROJECTS

Sunshine by Andrew

August 2017

- Android app built while taking Udacity's Developing Android Apps course
- Uses a RecyclerView to display a 14-day weather forecast
- Includes detail activities that display humidity, air pressure, and wind speed
- Share weather details using any messaging app via implicit intents

Hello, Arthur

August 2015

- Worked in a 3-man team to build a webapp that would notify users of opportunities to save money at food establishments based on location using GPS coordinates
- Languages used: Meteor, Javascript, HTML & CSS

TECH SKILLS

Languages/Frameworks:

- Proficient in: Java, HTML/CSS, Android
- Familiar with: JavaScript, Python, Ruby, Meteor
- Novice in: C, R

Technologies:

- Proficient in: Adobe Photoshop & Illustrator
- Familiar With: Blender, Ubuntu, Sony Vegas

EXPERIENCE

Rutgers New Brunswick Computing Services | Lab Consultant

August 2016 - Present

- Troubleshooting and maintaining Kyocera printers for lab patrons
- Providing excellent customer service by assisting with anything from password resets, navigating the Adobe suite, to using Windows or Mac OS

Ziel Inc. PBC | Intern

June 2015 – August 2015

- Designed initial website mockups by wireframing using Adobe Illustrator and Photoshop, and wrote PaperJS scripts to create clothing patterns
- Conducted market research surveys to see which kinds of products our targeted audience desired

League of Legends

September 2011 - Present

- Current rank: Diamond
- Played on a competitive team for Rutgers University
